

Ventilation for high demands

Step diffuser BLQ

The BLQ step diffuser ensures effective ventilation of large rooms and is especially suitable for cinemas, theatres or concert halls.

- **Uniform air distribution even with large temperature differences**
- **Discrete:** Installation in step risers allows the outlet to harmonise with existing architecture
- **Colour scheme** based on customer's individual choice, and available in any colour system, such as RAL, Pantone and many more. Custom designs (such as anodised or stainless steel) upon request
